

THE JOURNAL OF PHYSIOLOGY. 15 JANUARY 1947

Vol. 105. No. 4

CONTENTS

	PAGE
SMYTH, D. H. THE RATE AND SITE OF ACETATE METABOLISM IN THE BODY	299
THOMSON, L. C. AND WRIGHT, W. D. THE COLOUR SENSITIVITY OF THE RETINA WITHIN THE CENTRAL FOVEA OF MAN	316
HUGH-JONES, P. THE EFFECT OF LIMB POSITION IN SEATED SUBJECTS ON THEIR ABILITY TO UTILIZE THE MAXIMUM CONTRACTILE FORCE OF THE LIMB MUSCLES	332
COURTICE, F. C. AND DOUGLAS, C. G. THE FERRICYANIDE METHOD OF BLOOD-GAS ANALYSIS	345
GADDUM, J. H. AND GOODWIN, L. G. EXPERIMENTS ON LIVER SYMPATHIN	357
THOMPSON, R. H. S. THE ACTION OF CHEMICAL VESICANTS ON CHOLIN- ESTERASE	370
MELLANBY, E. VITAMIN A AND BONE GROWTH: THE REVERSIBILITY OF VITAMIN A-DEFICIENCY CHANGES	382
PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY, 26 October 1946	
<i>Rogers, A. F. (Introduced by R. L. Brocklehurst.)</i> Arterial spasm in the human umbilical cord	41 P
<i>Hitchcock, M. W. S. and Phillipson, A. T.</i> The tolerance of sheep to low concentrations of blood sugar	42 P
<i>Comline, R. S. (Introduced by W. Feldberg.)</i> Effect of flavine-adenine-dinucleotide and other substances on the synthesis of acetylcholine	43 P
